

At PLE, we aim to be bucket fillers all day, every day, everywhere we go!

Bucket filling means that we are kind, caring friends who work to make the world a better place for everyone we meet! Bucket filling is based on the idea that everyone carries around an invisible bucket and when we do kind, caring things for others, we fill their bucket. By filling others' buckets, our own buckets are filled too! Having a full bucket makes you feel happy!

Want to learn more about bucket filling? Check out this [video](#).

Free bucket filling resources are available [here](#).

What have you done today to fill someone's bucket?
